Department of Children and Families				
Family Intensive Treatment (FIT) Team	Family Intensive Treatment (FIT) teams provide specialized treatment for parents with substance use disorders who come in contact with the child welfare system. Treatment involves joint planning and case management by a team of child welfare workers, alcohol and drug treatment professionals, court representatives, and medical professionals. Families are provided comprehensive community services to address the multiple needs of parents and children, including substance use, parenting capacity, mental health, health, child care, housing and other services.	No		Chapter 65E-14.021, F.A.C.
Mental Health Clubhouse Services 40	Structured, evidence-based services designed to both strengthen and/or regain the individual's interpersonal skills, provide psycho-social therapy toward rehabilitation, develop the environmental supports necessary to help the individual thrive in the community and meet employment and other life goals and promote recovery from mental illness. Services are typically provided in a community-based program with trained staff and members working as teams to address the individual's life goals and to perform the tasks necessary for the operations of the program. The emphasis is on a holistic approach focusing on the individual's strengths and abilities while challenging the individual to pursue those life goals. This service would include, but not be limited to, clubhouses certified under the International Center for Clubhouse Development.	No		Chapter 65E-14.021, F.A.C.
Supported Employment 25	Supported employment services are evidence based community-based employment services in an integrated work setting which provides regular contact with non-disabled co-workers or the public. A job coach provides long-term, ongoing support for as long as it is needed to enable the person served to maintain employment.	No		Chapter 65E-14.021, F.A.C.

Department of Children and Families				
Supported Housing/Living 26	Supported housing/living is an evidence-based approach to assist persons with substance abuse and mental illness in the selection of permanent housing of their choice. These services also provide the necessary services and supports to assure their continued successful living in the community and transitioning into the community. For children with mental health problems, supported living is the process of assisting adolescents in arranging for housing and providing services to assure successful transition to living independently on their own or with roommates in the community. Services include training in independent living skills. For substance abuse, services provide for the placement and monitoring of recipients who: (a) are participating in non-residential services, (b) have completed or are completing substance abuse treatment, and (c) need assistance and support in independent or supervised living within a live-in environment.	No		Chapter 65E-14.021, F.A.C.
Outreach 15	Outreach services are provided through a formal program to both individuals and the community. Community services include education, identification and linkage with high risk groups. Outreach services for individuals are designed to encourage, educate, and engage prospective clients who show an indication of substance abuse and mental health problems or needs. Individual enrollment is not included in outreach services.	No		Chapter 65E-14.021, F.A.C.
