## I. BACKGROUND

Broward Behavioral Health Coalition, Inc. (BBHC) was created in 2011. It was selected by the Florida Department of Children and Families (DCF) as Broward County's Managing Entity (ME) for mental health and substance abuse services.

BBHC's mission is to advocate and ensure an effective and efficient behavioral health system of care is available in Broward County.

BBHC receives funding from the state through DCF's Office of Substance Abuse and Mental Health. These funds come primarily from federally funded Block Grants. BBHC also pursues and receives funding through state grants and directly from federal grant proposal submissions.

BBHC manages the Forensic Service Program that serves individuals who have been adjudicated Incompetent to Proceed due to mental illnesses under the provisions of Chapter 916, F.S. or individuals deemed Not Guilty by Reason of Insanity.

BBHC also manages the Felony Post-Arrest Jail Diversion Program for individuals in jail with serious mental illnesses, who are charged with 3<sup>rd</sup> degree or non-violent 2<sup>nd</sup> degree felonies.

## II. STATEMENT OF PURPOSE

BBHC will be selecting one provider to establish and operate the Forensic Service Program and Felony Post-Arrest Jail Diversion Program in Broward County.

The Forensic Service Program and Felony Post-Arrest Jail Diversion Program aim to provide an independent, community-based behavioral health treatment with dignity and fairness, in the least restrictive manner possible, ensuring the safety of the people served by BBHC, and the community. These services will be provided within the following tracks.

1. **The Forensic Service Program** is a program designed to provide care coordination and peer support services, ensuring the linkage and provision of comprehensive community-based behavioral health services by the Community Service Providers. They are also responsible for providing Competency Restoration Training as ordered by the court to allow the individual to regain competency to stand trial.
  - Pre-commitment Diversion Track, the process by which an individual is provided community-based services prior to, or in lieu of, commitment to a state forensic mental health treatment facility. The diversion process applies to adults or juveniles adjudicated as adults who have been charged with a felony offense, booked into the county jail or local detention facility, identified as having a mental illness and at risk of commitment to a state forensic treatment facility, pursuant to Chapter 916, F.S. The individual is diverted to appropriate services as a result of interventions by the forensic specialist, forensic case manager, other community mental health stakeholders or the Managing Entity.

- Post-Commitment Diversion Track, the process by which an individual is permitted by the committing court to forego admission to a secure forensic facility and reside in a less restrictive environment. The diversion process applies to adults or juveniles adjudicated as adults who have been charged with a felony offense, and adjudicated as incompetent to proceed or not guilty by reason of insanity pursuant to Chapter 916, F.S. The individual is diverted post commitment to a less restrictive community mental health treatment facility, or the order of commitment is vacated, and a new order is issued conditionally releasing the individual to appropriate community-based services.
  - Post Commitment Services, services that include following up with individuals admitted to State Hospitals. This includes participating in treatment team meetings at the hospitals and coordinating with hospital discharge planners for the individual's successful return to the community.
2. **Felony Post-Arrest Jail Diversion Program** is designed to divert individuals charged with 3rd degree and 2<sup>nd</sup> degree non-violent felonies who experience serious mental illnesses (SMI, e.g., schizophrenia, schizo-affective disorder, bipolar disorder, major depression, or post-traumatic stress disorder) or co-occurring serious mental illnesses and substance use disorders. These individuals will be diverted from the criminal justice system into comprehensive community-based treatment and support services. The program will provide an effective, cost-efficient solution to a community problem and will work by eliminating gaps in services, and by forging productive and innovative relationships among all stakeholders who have an interest in the welfare and safety of one of our community's most vulnerable populations. Participants in the felony diversion program will be referred primarily from jail. Alternative referrals sources may include the Public Defender's Office, the State Attorney's Office, private attorneys, or the judiciary. Services may include care coordination and peer support services, to ensure the linkage and provision of comprehensive community-based behavioral health services.

All participants must meet the clinical criteria as well as the legal criteria. The Public Defender (Defense Attorney) and the State Attorney must provide approval for program inclusion. At the time a person is accepted into program, the state attorney's office informs the court of the plea the defendant will be offered contingent upon successful program completion. Average length of time for program completion is 12 months. The program participants must sign an enrollment letter that will outline the conditions of the plea as well as the transition plan to the community.

### III. PROGRAM RESPONSIBILITIES:

The Forensic Service and the Felony Post-Arrest Jail Diversion Programs are intended to be an independent, safe, and effective service alternative to commitment.

Calculation of the 72-hour deadline for filing of the notice of protest shall not include weekends or BBHC holidays in the calculation of such a deadline.

Protests, appeals, or disputes may only challenge a procedural matter related to the solicitation. notice of appeal, protest, or dispute but must be presented with the formal written protest, appeal, or dispute within the ten (10) day period for filing the same. The estimated contract amount shall be based upon the contract price submitted by the protestor. If no contract price was submitted, BBHC shall provide the estimated contract amount to the protestor within 72 hours after the notice of protest, appeal, or dispute has been filed. The estimated contract amount is not subject to protest. Release of the bond shall be conditioned upon the protestor's payment of all costs and charges that may be adjudicated against the protestor in the hearing on the protest or in any subsequent legal action that may be brought, as well as any subsequent appellate court proceeding arising therefrom. Failure to file the proper bond at the time of filing the formal protest, appeal, or dispute will result in a rejection of the protest.
